NUMBER 577

THURSDAY, SEPTEMBER 12, 1745.

Alexandria, August 31.

W E begin to be pretty positive here, that the Spanish Schemes, however well laid, will infallibly fail of producing their Effects; and this for a plain Reason. They were so much persuaded of their Superiority, and looked upon the Success of their Scheme as a Thing so much out of the

Power of Fortune, that they began immediately to disclose their true Design, and to oblige the Inhabitants of the Place they reduced, to swear Allegiance to the Infant, as King of Lombardy; but they did not consider the Importance of that Title, when they publicly declared Don Philip's Resolution to assume it; which must infallibly raise him so many Enemies, as he, and all his Allies, will never be able to subdue. In the Place, it seems very strange to assume a Title, with so much as pretending to make out a Right. That were Kings of Lombardy 1000 Years ago affords so much as a plausible Pretence; that therefore there must be a King of Lombardy now. But, besides all this, what were the Bounds of this ancient Kingdom. Supper Lombardy contained the Principality of Piedmont, and the Duchies of Milan and Monferrat. The Lombardy, besides the Duchies of Modena, Mantua, Parma, and Ferrara, comprehended the Territories of Padua, Brescia, Vicenza, Verona, and Bergamo, belonging to the Venetians, and the Country of Bologna, which now belongs to the Holy See. Is Don Philip to be all this? No, surely the Italian Princes will never give up their Patrimonies to make a Grandson of the Duke of Parma King of Lombardy. On the other hand, if he is not to have all, there is as little Reason should have any; for, if he should have a Part granted him, there seems to be no Reason to doubt, that, by degrees, he will acquire all; and therefore his Majesty is without Hopes, that the State of Venice will consider her own Danger, as well as his Losses, and quit the State of Inactivity, which must apparently ruin

Recd of a private Letter from Rochelle, August 30.

M. Bigot, Intendant of the Royale, that is, Cape Breton, let out Yesterday to return to Paris. He came with a great number of the Prisoners from America, on board an English Frigate from Louisbourg, and assures us, that in his Passage three English Squadrons, the first of 20, the second of 17, and the third of 13 large Ships, and 38 Privateers, which waited for our great Convoy. It is impossible that they should escape, considering our Fleet consists of 250 Sail, and is escorted by four Men of War. On the other Hand, should they succeed, should they take or destroy this Convoy, the Trade of France will be totally overwhelmed. To avoid so great a Danger, we are resolved not to fail, unless the Count de Maurepas shall compell us by his Orders. We hope the King's Ships that are at Rochelle, and those that are at Brest, will have Orders to assist us, under the Command of the Duke d'Anville. The Ships at Rochelle are, the Boreas, the Typhon, the Leopard, the Halcyon, the Aurora, the Apollo, and the Subtile; the four first 70 Gun Ships, the other three of the Line. Many People believe that we shall attempt to retake Isle Royale, but that is not very probable. If we should have such Orders, I shall acquaint you. This will be very hard upon our Privateers, who must part with their Crews; and on the other Hand, the Fleet should not fail this Year, Great God! What miseries will ensue!

P. S. The Vessel called D'Ormesson was launched on the 6th, but the Rudder broke as she went into the Water, and this Accident has broke the Heart of the Owner. Here let me end, since I have nothing but Misery and Misfortune to write.

N. B. This Letter is exactly and even literally translated, without the least Addition or Diminution.

SCOTLAND.

Edinburgh, Sept. 6. The Inverness Post, who arrived yesterday Night, declares, That General Cope arrived at Inverness on Thursday Evening; that when he left Inverness on Saturday, his Excellency lay encamped at that Place. This Post was, in Athole, taken up by the Highlanders, and brought before the young Chevalier at his castle, with whom the Lad conversed. The Highlanders opened the Mail, and took out several Letters, which they retained; but promised to transmit them hi-

ther with the first Opportunity; and otherwise he was civilly used.

Capt. Rogers, one of General Cope's Aides de Camp, arrived here from Inverness late on Wednesday Night.

That Day a Brewer's Servant prying too anxiously into the Fortifications of the Castle, was taken up as a Spy, and committed to Prison.

General Hamilton's Regiment of Dragoons decamped Wednesday from St. Anne's Yard, and marching to Lochbank (or Bearford's Park) pitched their Tents on the Side of the North-loch, hard by the Castle of Edinburgh.

The Magistrates of this City sent that Day several Carriages loaded with Muskets, Bayonets, &c. to Leith, in order to arm all the Inhabitants against all Events. The Trained Bands of this City not only do Duty in the Parliament-house, but also stand Guard at all the Gates, and patrol about the Streets the Night long; so that the Peace of this City and the Neighbourhood is effectually provided for. The Magistrates constantly attend them; nor is any Gentleman allowed to drink above one Chopin of Ale.

We are hourly in Expectation of seeing some Transports in the Frith, having aboard some Part of the 6000 Dutch Troops designed for the Use of the Government, and we hear Orders are given for preparing Quarters for 1000 of them at Leith.

The Trade from London arrived yesterday in the Frith, and there came along with them an Officer, two Sergeants, and fifteen Gunners, Matrosses, &c. from Woolwich, who yesterday entered the Castle of Edinburgh.

They also bring along with them between 5 and 6000 Stand of Arms; above a Dozen Cart-loads of which were yesterday brought up from Leith, and sent up to the Castle.

An Express has brought Advice, that 400 Highlanders took Possession of the Town of Perth last Tuesday Night; and we learn that Bodies of them are coming down into Fife, and that they have sent Letters to several Persons, requiring them to attend their Standard.

Yesterday was strictly observed here in Fasting and Prayer; and the Ministers who officiated were very zealous in exhorting their Audiences to bestir themselves in Defence of the Government, and all that is valuable.

A Letter from the Neighbourhood of Dumfries, dated August 30th, says, 'I send you a Piece of News which you may absolutely depend upon, viz. The Covenanters round Dumfries have been privately arming ever since they heard of the intended Invasion. They are regimented to the Number of 1000, have got two or three Standards painted in Dumfries, which many have visited: On one Side is a flaming Sword, represented guarding the Thistle, with a Crown above it; the Words over the Sword, *Jehovah-Nissi*, and above the Crown and Thistle these Words, *The Covenanted Work of Reformation*. They expect soon to increase, which we guess from their having bespoke several such Standards.'

From the CALEDONIAN MERCURY; dated Friday, September 6.

Whereas by a Sentence of the Magistrates of Edinburgh, upon a Complaint preferred at the Instance of his Grace the Duke of Athole, against me, as Publisher of this News Paper; I am decreed to insert in this Mercury, That the following Paragraph of the Mercury, of Date Monday September 2, is false, scandalous, and injurious, viz. 'His Grace arrived here Yesterday, having received a Letter from his eldest Brother, (who was attainted in 1715) advising that he was coming to take up his Quarters at his Castle of Blair.' And further fined me in Five Pounds Sterling, payable to the Fiscals, and ordained me to be imprisoned for the Space of 48 Hours, and until Payment of the said Sum. I therefore acknowledge, that what was so inserted in the said former Mercury, concerning his Grace's having received a Letter from his Brother, &c. is false, scandalous, and injurious; and beg Leave likewise to declare, that my inserting the same in the foregoing Words, was entirely owing to my Want of a right Idea of the Import of the said Words, which I took from vague Reports, with other Pieces of News, and to my being hurried at the Publication of the said Mercury; and I humbly and heartily beg his Grace's Pardon.

LONDON.

The Court of Versailles having lately formed an entire new System for the Affairs of the North, the Chevalier de Fonds has been charged with so much of it as regards Sweden; which he has been sent to communicate to the Marquis de Lusmarie at Stockholm, and has Orders to take the Sentiments of the Statesmen at Berlin, en passant thereupon, that it may prove more agreeable to the Prussian Party there.

His Most Christian Majesty has declared that the Cartel shall now be executed, with respect to the English and Hanoverian Soldiers, in the same Manner as before the Seizure of the Marshal Duke de Belleisle and his Brother; which is supposed to be with a View to release them from their Engagements, that he may employ the Marshal, either as a Plenipotentiary in the Winter, or as a General in the Spring.

Private Letters from the Hague say, that their High Mightinesses are determined to make a strict Enquiry into the Conduct of all their Officers during the two last Campaigns, as also into the State of their Navy, that they may (in case the War continues) be the better able to provide for vigorous Measures next Summer; and are also disposed to raise the necessary Supplies without Delay.

The Manchester, Cooke, who arrived in the Downs on Tuesday Night, gives an Account, That Sunday last, in the Evening, three Leagues W.S.W. from Beachy Head, the Christopher, Clark, of Colchester, from Liverpool, was taken by a French Cutter Privateer.

Yesterday the Merchants of the City of London waited on his Majesty, at his Palace at Kensington; with their Congratulatory Address, on his safe Arrival to his British Dominions; and they were graciously received; and had the Honour to kiss his Majesty's Hand. A considerable Number of them (upwards of Three Hundred) had bespoke a Dinner, which was provided for them, against their Return, at Merchant-Taylor's-Hall; toward which they were presented with Five Brace of Bucks by several Gentlemen.

The Irish Mail, which came in on Tuesday Night, brought Eighteen thousand Letters, chiefly from our Ships which are arrived from the West-Indies: The Sorting of these occasioned the Letters being delivered so late Yesterday Evening.

The Beginning of this Week died at Windsor, on a Party there, Captain Lindsay, of the Third Regiment of Foot Guards.

Mr. John Dorsett, one of the Clerks belonging to the Board of Works, is appointed Scavenger of Whitehall, in the room of Edward Mift, deceased.

Yesterday the Sessions began at the Old Bailey, when 21 Prisoners were tried, one of whom was capitally convicted, viz. Catharine Evans, for stealing 15 l. &c. the Property of Mary Pound, in the Dwelling House of William Walker.

Fifteen were cast for Transportation: And Five acquitted.

To the Consideration of the PUBLICK.

How lamentable is it to observe the Depravity that prevails among many People of this City, the Metropolis of the English Nation!

Whilst we are encompassed with Enemies, both by Sea and Land, and the British Army deeply engaged in War (by which many of our fellow Subjects have lost their precious Lives), and now lie encamped in the open Fields, to stop the raging Progress of the Nation's Enemies.

How abominable and shocking is it to consider the Actions of their fellow Subjects at home, who frequent those many voluptuous Entertainments, invented for private Gain, by suiting the Bait of soft Luxury and Voluptuousness to the Increase of Sensuality, which steals away the Mind from Virtue and Industry, and is the Highway to Prodigality, Vice, and Lewdness, which generally end in the Ruin of Families, and, by its Increase, that also of Nations.

Altho' these Nurseries of detestable Lasciviousness are the Grief of sober Men, especially to behold the Increase thereof, and their Fear and Dread is concerning the Consequence, which the Legislature will do well to consider.

And seeing these wanton People are so liberal of their Money, would not the Superfluity, in which they abound, be better employed in helping to pay the great Charge of the present Exigences of the Nation.

ANTI-SYPHYLICON.

THE only short and most infallible

Cure in the Universe for the Venereal Disease from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are roughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attending Symptoms, tho' ever so severe, are entirely carried off in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Matter on one Hand, or a venereal Gleet or Weakness to lay on the other.

And the most inveterate Degree of the French Ill attended with Nocturnal Pains, universal Breakings of bone, and all the other most exasperated Symptoms, are overcome by it, and effectually and much more safely red than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without pairing Strength, or occasioning any Inconvenience, as to bespeak it the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Distemper nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, by only a Dose or two of it, be perfectly freed from Apprehensions; for it suffers no lurking Venom to lie in the Body, but wholly extirpates its Root and Branch in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining tincture of former Injuries, may by a few Doses of it entirely themselves from all Suspicion of that Kind; for it admits no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on Account, in all scorbutick, scrophulous, and even leprous Eruptions, or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHYLICON is Six Shillings a Pot, which, considering its extraordinary efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is pointed by the Author to be had only at Mr. Ransom's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Paper of Instructions, by the Perusal of which, all Persons who are ever affected with any Degree of the Venereal Disease, perfectly understand their own Condition, and can know when, and when not, the Venereal Poison is rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.
